mausoleum of the medusa

Pretty fun little free game, you've got nothing to lose trying it. The text scroll at the beginning and the wild aesthetic style do a great job of setting up a tone very fast. Very simple though, got first place on the leaderboards with 21 minutes of time ingame lol.. Nice idea, absolutely terrible gameplay. The concept is simple and nice, but the game is unplayable and unnerving so much the game mechanics are bad.. WTF!!

. A very boring boss fighting sim. Same thing over and over again with the speed of the boss and the amount of projectiles slowly being increased over and over again. Ok for free, but will only last you about 5 min.. I had no idea what or how to play the game they just throw you in to a arena with a crazy person throwing mom's blue spaghetti.. this stupid ♥♥♥♥ing piece of♥♥♥♥♥game. Fun game, glad I got to play it during the time my internet was down, hehe.

Very short and challenging at first, but when you get in the flow, it's done in like 20 minutes. I reviewed the game at the greenlight, and I'm happy for the developer it got released.. You can hit the enemy even if not facing it.. Great, fun game, evil AF.

Can't wait for what else this studio does!. I really loved the pixelated style. The game was simple but for some reason, I had a hard time with this one. I do recommend that you play it because it is very interesting and has a good concept. I hope you get further than I did.

Very simple and straightforward game. What I really liked was how challenging it was to actually defeat Medusa with her
♥♥♥♥♥♥♥♥♥♥. Also, I find the charge attack to be a bit pointless, seeing as it's already difficult enough to hit her. Then again, there's always a way, and clearly I didn't find it.

<https://www.youtube.com/watch?v=0APD17gVcSU>. I thought this game was okay, for about 5 minutes, upon which time I beat it. I was excecting some kind of story, some dungeon crawling, fighting monsters, something. No, it's just a 1-on-1 with Medusa, with every attack, both your's and her's being a knockout. Boring. The only variation is on Medusa's health, and you can't even increase that beyond then as of a few weeks ago, when I deleted this game.

Maybe come back when there's more content. Maybe.. Graphically simplistic, but with frighteningly fast gameplay. You run around as a gladiator trying not to get killed by Medusa and her evil bolts that she fires at you. She seems surprising hard to kill and will kill you just by being anywhere near you, but with a little bit of practise, she most likely can be defeated.

Make up your own mind with this gameplay <https://youtu.be/LhCZThH1M9I>. Very surprised how simple but fun this is. It's aboutg 10-15 min of free gameplay and I'm OK with that. It's skill based and hitting Medusa is close to pixel perfect.

Obligitory video,
https://youtu.be/ExbE_NhDyeg. i'm a good fighter fighting the world. You can hit the enemy even if not facing it.. Short but fun, with a dark setting... also the soundtrack is nice :) 7*10. It's a fun game, but there's really not much to it at all. At the most, it's a fun time waster.. This is a really short game to play for 2~3 minutes, it has some really well done pixl art (but has inconsancies in animation and hitboxes) that's worth only your first playtime because of repetition takes over.

Unfortunally, the developers doesn't understand what thes have made with the game, we have a wrong name -first blood for a minimum 3 kills... what?) and arcade mode that is more of the same but not counts for the leaderbords... ok, if not had a heavy RGN element on spawns to quick kills. The developers didn't notice that and a added a absurd achievement to beat their time (~42 sec).

Your download probably have ended now, so go play it! **Unless you are a perfectionist achievement hunter**. I regret the litte amount of time spent on this boring game.
